

Marian Cozma

PRODUCT DESIGN LEAD (UX MANAGER)

Contact Nr: +44 7398 143483 | Email: mc@mrcozma.com | Portfolio: www.mcozma.com

Design leader with over 10 years' experience delivering scalable digital products across enterprise platforms, AI-driven systems and complex environments.

Experienced in streamlining complex workflows and helping shape platforms operating at national and global scale, supporting millions of users and businesses. My background includes working with organisations such as **Google**, **HSBC** and **UBS** to transform fragmented systems into cohesive, user-centred experiences.

My work focuses on platform design, internal tools and decision-support systems, bringing together UX, data and cross-functional leadership to improve efficiency, consistency and product outcomes.

SELECTED PROJECTS

Mobile Onboarding (HSBC): designed end-to-end onboarding experience enabling customers to complete verification and account setup digitally.

Trade Alert Supervision (UBS): Redesigned alert triage workflows, improving efficiency and supporting better decision-making in complex environments.

Personalisation & Migration (Three UK): partnered with engineering to implement personalisation capabilities and delivered templates + guidance for 1,400+ page migration into Adobe Experience Manager, supporting 20+ developers.

EDUCATION

University "Vasile Alecsandri" (2010–2014)
BSc, Engineering Information & Technology

Focus: Software Engineering, Web Development, Artificial Intelligence, Computer Networking, and Information Security.

Relevant modules: Object-Oriented Programming, Algorithm Design, Databases, Web Client Programming, Information System Security, Computer Networking, Artificial Intelligence.

College "Gheorghe Asachi" (2006–2010)
Diploma, Business Studies

Focus: Entrepreneurship, Marketing, Finance & Negotiation.

Relevant modules: Accountancy, Business Marketing, Finance & Taxation, Business Negotiation.

EXPERIENCE

Senior UX Manager

HSBC — JAN 2025 – PRESENT

Driving innovation and design leadership in Business Banking digital products.

- Lead design direction across enterprise platforms operating at national and global scale, serving 8.8M+ active users, 627K+ UK businesses, and contributing to platforms used by 2M+ companies worldwide.
- Influenced strategic investment (~£900k) by aligning stakeholders on the value of new product initiatives.
- Manage and mentor 3 senior designers; establish design standards, review frameworks, and quality benchmarks to improve consistency and quality across teams.
- Drive cross-functional alignment across product, engineering, and business teams, reducing fragmentation and improving delivery efficiency.
- Define and implement design processes and stakeholder engagement models, improving collaboration and expectation management.
- Contribute to the adoption of shared design standards across multiple regional teams, increasing consistency and scalability across platforms.

Senior UX Designer

Google — OCT 2024 – JAN 2025 *(Contract)*

Delivered UX for Google's internal global business tools.

- Led UX for internal enterprise tools supporting global operations, contributing to a platform used across 120+ teams and enabling large-scale workflows.
- Designed and improved experiences within a system supporting 23K+ events, 10M+ users, and 40M+ communications.
- Simplified complex operational processes, improving efficiency and reducing friction for distributed teams.
- Partnered closely with Product and Engineering to define, validate, and deliver solutions in a fast-paced environment.

Lead UX Designer

NTT DATA — JUN 2023 – OCT 2024

Supported multi-industry clients with design leadership, pitches, and delivery.

- Led UX delivery across multiple industries (telecom, insurance, banking, automotive), shaping solutions from concept to delivery.
- Managed and mentored designers (people management for 3 designers), improving team performance and capability.
- Created and presented UX strategies that contributed to winning client engagements.

Senior UX Designer

UBS — JAN 2023 – JUL 2023 *(Contract)*

Transformed compliance workflows and introduced optimisation tooling.

- Led the redesign of a complex platform supporting operational and monitoring workflows, improving usability and efficiency.
- Integrated AI/ML-driven capabilities into workflows to support decision-making and improve detection and triage processes.
- Unified fragmented systems into a cohesive experience, reducing complexity and improving operational clarity.
- Contributed to early-stage optimisation tooling, supporting automation and data-driven decision-making.

CORE SKILLS

Leadership & Strategy: Design direction · Team leadership · Stakeholder alignment · Delivery governance · Process definition · Mentoring & team growth

Product & UX: End-to-end product design · Complex workflows · Platform design · Information architecture · Prototyping · Usability & accessibility (WCAG) · Data-informed design

AI & Advanced Systems: AI-assisted workflows · Conversational UX · Decision-support systems · Workflow optimisation

Design Systems & Delivery: Design systems (creation, adoption, governance) · Scalable patterns · Documentation · Design-to-dev collaboration

Methods & Practices: Design sprints · discovery-to-delivery frameworks · data-informed decision making · service blueprints · facilitation of collaborative workshops

Tools & Technology: Figma · FigJam · Miro · Sketch · Adobe CC · Jira / Confluence · HTML/CSS/JS

MENTORSHIP & COMMUNITY

ADPList Mentor (2024 – Present): Portfolio coaching, interview preparation, and UX mentorship.

EXPERIENCE

Senior UX Designer

Legal & General — SEP 2022 – DEC 2022 (*Contract*)

Research-led cross-sell & upsell systems.

- Analysed high-drop-off journeys (180K+ users) and redesigned flow structure to better align user intent and decision-making.
- Reduced low-intent user progression through key journeys, improving funnel efficiency and clarity.
- Improved journey effectiveness by simplifying entry points and guiding users into more relevant paths.
- Conducted research, analytics, and A/B testing to validate design decisions in a data-driven environment.
- Delivered iterative improvements through prototyping and usability testing.

Senior UX Designer

Three UK — JAN 2022 – SEP 2022 (*Contract*)

Delivered innovation through personalisation & large-scale content migration.

- Led design for large-scale content migration (1,400+ pages), improving scalability and consistency across platforms.
- Developed templates and frameworks adopted by 20+ developers, accelerating delivery and reducing duplication.
- Enabled personalisation capabilities through collaboration with engineering teams.
- Facilitated design sprints to de-risk delivery and accelerate implementation.

Product Designer

Virgin Media — JUL 2021 – DEC 2021 (*Contract*)

Restructured Help & Support journeys (web & mobile) to deflect calls.

- Redesigned Help & Support journeys across web and mobile, improving self-service and reducing reliance on support channels.
- Delivered consistent cross-channel experiences through close collaboration with stakeholders.

eCommerce Digital Designer

Totaljobs Group — MAR 2021 – JUL 2021

Improved recruiter-facing platforms to drive sales growth.

- Delivered end-to-end design for recruiter-facing platforms to support engagement and sales performance.
- Improved usability and task flows to enhance conversion and efficiency.

Earlier Experience

2015–2020

Worked across digital design and development roles at HUB, Vision247 (OneHubTV), Trivelles International, CMARC IT Solutions, Galldris Group, ObjectTech, and Aspect Sign.

Hands-on with front-end development, Lean UX processes, and SME consultancy, building versatile experience before moving into senior product design roles.
